THE FELINE TIMES

Sea Battle is Raging

An Ethanlish fleet has been assembled to attack the Bad Guy-inhabited hallway. It consists of two aircraft carriers, one search-and-rescue ship, two mega-transports, a thousand planes, ninety bombers, one patrol boat, two battleships, two destroyers, and a submarine. A lot of the Ethanlish ships are retreating, because the giant dust cloud and explosions inside are too big.

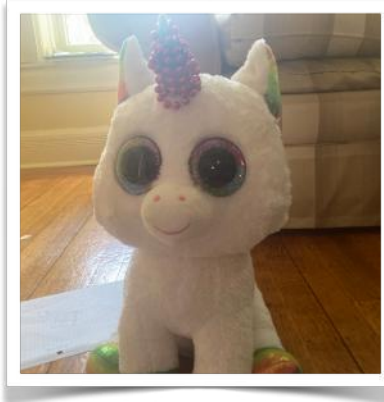

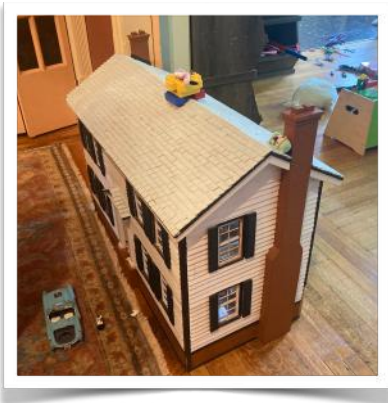

The weather will be sunny up until Tuesday. ☀️

ETH Dollhouse is Leaving for Party Island

ETH Dollhouse, the Ethanlish flagship frequently mentioned in the news, is leaving for Party Island (see bottom of sidebar). It is carrying Emperor Blue Eyes and, surprisingly, Wu-Wu-Wu Zap, who recently boarded! The ticket costs will be the same, and the bottom private compartment near *Cicada Shop* is open. It will be carrying passengers from the Dining Room.

Conditions in the Dining Room are not yet suitable for making a city, due to enemy troops coming in and the ground being very loose.

Mega-unicorn Pixy

The siege cannon will be loaded onto the dollhouse very soon. Emperor Blue Eyes is studying in the living room, at his desk. Buzz's suit of armor is being fixed up; the electricity is spinning a superwire to help dents and cavities in the armor.

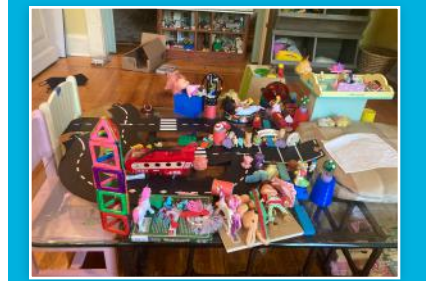

Wu-Wu-Wu Zap is currently in Hannah's room, but may leave.

Assault on Kitchen

The parade going backwards (as mentioned on page 1) is leading the assault on the kitchen. They plan to bust through its walls and charge into the streets and cause chaos. The plan probably will work, but no one knows for sure. The bad guys will be stretched from two sides: the attack on the harbor and the attack on the kitchen. We hope to get them by that way. The famous general (mentioned in the April 18 edition) will be leading the assault.

Bingo will be featured in the news quite often, because of *Binkevis Hotel*. Binkevis Hotel is a hotel owned by Velvet and Chris, as mentioned on page 1. Learn more about Binkevis Hotel with Velvet and Chris!

Pixy has made a new country called *Insomnia*. It is on Coffee Table Island (recently renamed Party Island). It is super magical, and its jungles are beautiful. There are other unicorns on the island besides Pixy! Just ask Hannah or Pixy about it.
